Executive Director

NOTE FOR: DDO

John:

Below is the IG's recommendation with regard to overseas office space requirements, as approved by the DDCI. Please assemble the study group and give me your recommendations through the DDA by late November.

"We recommend that the Executive Director direct the DDO, in consultation with the Director of Security, the Director of Technical Service, the Director of Communications, the Director of Logistics, and the Director of SIGINT Operations, to establish a group to study the DO's technical and security requirements in new overseas construction or space modifications. The group should provide a written report and recommendations by 1 December 1983 regarding the management and coordination of Agency activities in this regard--focused particularly on proposed future activities--and the representation of our needs to State/FBO."
